Dear John,

Please find enclosed two letters. The first is from Letter Carrier, Mary Wong. The second from Vladimir Vuksan, PhD.

The intent is to determine if Canada Post Corporation is interested in partnering research in "Ginseng" as it relates to wellness issues.

John, can you advise who the correct individual at Canada Post is to consider this proposal. I can say that at the present time Toronto Stn "J" is leading my Zone in attendance PT 7 (seven) days per employee. Is this the impact of "Ginseng"? Who can say. Perhaps this research will confirm.

Thank you for your help.
